TOTAL FINAL CLAIM	\$ 820,158.20
LESS DISTRICT SHARE (2,500/MILE @ 2.8 miles)	\$ 7,000.00
TOTAL ELIGIBLE	\$ 813,158.20
<b>MAX REIMBURSEMENT = 75% OF ELIGIBLE</b>	<b>\$ 609,868.65</b>

Mr. Chris Neudeck reported that he anticipates a 75% return. The District should expect to receive their reimbursement next May or June.

**II. LEVEE MAINTENANCE PROJECT – FY 2023-2024**

A. Review status of the plan development and biological evaluation, measures, and impacts associated with the Rock Slope maintenance project along the

Stockton Deep Water Ship Channel (DWSC) on the District’s levee adjacent to Stockton Golf and Country Club (SG&CC).

At the last District meeting, it was agreed to move forward with the Rock Slope Project on the Deep Water Ship Channel adjacent to Holes eight and nine at the SG&CC. KSN (along with Diane Moore – KSN Biologist) and other interested parties met and walked the site. Mr. Neudeck stated that a complete survey has been done and the sections have been drawn up in draft form. Ms. Moore stated to Mr. Neudeck that there can be no double jeopardy here – she said if you take out the undercover you would have to leave the trees – you cannot do both. Mr. Neudeck said the main issue is the unique character of this particular track of land that there is an extensive amount of trees. Below the trees is groundcover/undercover that needs to be removed in order to get to the slope to do the work. Provided you maintain the shade you can remove brush beneath it. Mr. Neudeck spoke to his 1992 Routine Maintenance Agreement that he said is very liberal in what can be done. Fish & Wildlife were advised against being contacted. Mr. Neudeck said this will be rocked from the parking lot to the t-box provided the budget can support this. If not, work will begin at the t-box moving in a northerly direction. Further discussion was held. Mr. Neudeck will be having the sprinklers flagged. He said the trees are fine and rock will be placed around them and the trees will be trimmed.

Attorney Pinasco will prepare an Easement for SGCC. This will go out to bid by the end of the week. An award is hopeful by October 25, 2024. A Special meeting for the award may be called as needed.

**III. SAN JOAQUIN COUNTY OFFICE OF EMERGENCY SERVICES (OES)  
DELTA R3 UPDATE FLOOD SAFETY PLANS**

- A. KSN Inc. is in the process of updating the District’s Emergency Operations plan and will unveil upon its completion in January.

Chris Neudeck reported he is currently working with OES to update the District’s manual. Trustee Gulli mentioned he wanted to look at Calaveras also. Attorney Pinasco will see how the District can participate in the scheduling of the Lower San Joaquin River Project and will look into having the Calaveras project moved up on the schedule.

**IV. FALLEN TREE AT MATT DAVIES HOME AT 2030 MOREING AVE**

- A. Review the status of the tree removal and repair of the damaged levee slope.

Mr. Neudeck stated this work is now complete. Discussion was held.

After review,

On a motion by Trustee Gulli, seconded by Trustee Gaines, the Trustee’s present voted unanimously to having Attorney Pinasco send Mr. Davies a letter (with the bill) requesting a signed Easement, reimbursement, and explaining the policy and property owner responsibilities by the following vote.

Ayes: Gulli, Gaines, Kauffman  
Noes: None  
Abstain: None  
Absent: None

**Item 8. Superintendent’s Report.** Presentation of Superintendent’s Report; request for direction.

- Mr. Palacio will have Holt Repair do some sump cleaning in the coming weeks.
- An oil spill was reported to Mr. Palacio on September 25, 2024. He responded and found oil booms had already been deployed and containment was underway. Mr. Palacio and Mr. Neudeck reported on the oil spill informing the Board that the U.S. Environmental Protection Agency took over and the clean-up is currently underway and will be done by the end of the day.
- Mr. Palacio to contact PG&E to follow-up with the demand charge at Wisconsin.

**Item 9. Letter of Map Revision.** Discussion and possible action regarding Letter of Map Revision.

President Kauffman asked where the District stands with this issue. Mr. Neudeck indicated that SJAFCA is in the midst of finalizing their submittal to FEMA. They still need to finalize their as-builts, O&M Manual, and minor engineering work to make their package submittal to FEMA complete. The Trustee's reminded Mr. Elias that the District is still waiting for the information they requested so that the District can do their review. Mr. Elias mentioned that he will send the interior drainage analysis in pieces, if need be, so that the District's review can begin.

**Item 10. Report on Meetings Attended.** President Kauffman stated he attended a meeting having to do with the oil spill and had nothing further to report.

**Item 11. Trustee Reports.** Discussion and direction on Trustee Reports.

- a. Calaveras River Pump Station pipe repair at Stockton Golf and Country Club.
- b. Slope repair at Stockton Golf and Country Club.

RD 1614 Superintendent's Report  
October 2024

10/31//2024

The District's 11 pump stations and levee system continue to function well. There are no significant problems with pumps to report. Preventative maintenance / repairs, yard maintenance was performed .

**Pump Stations:** Completed minor gate and fence repair at Wisconsin and Franklin pumps stations. Major sump cleaning work with Holt Repair co was completed at 4 of our most problematic stations . I performed a full function test , inspection and operation test of all pump station motor and control systems including alarm and control setpoint simulation and verifications. The RTU (Remote Terminal Unit) from Plymouth and River pump station reported last month was found to be irreparable . A new one was ordered and should be here in a day or two. I will install it ASAP.

**Levee inspection:** A levee inspection was performed from road side inspection. No problems to report other than I am investigating a complaint from a resident that a neighbor is digging into a levee by the residence at 1632 Tuxedo ave. I am unable to see the work being done from either side of the canal due to fences blocking the entrance from all sides of the property. I will attempt to make contact tomorrow with the residence with the assistance of a KSN inspector.

This concludes my report.

Respectfully:

Abel Palacio - Reclamation District 1614 Superintendent:
